Goal 13: Take urgent action to combat climate change and its impacts

Target 13.2: Integrate climate change measures into national policies, strategies and planning

13.2.1 Number of countries that have communicated the establishment or operationalization of an integrated policy/strategy/plan which increases their ability to adapt to the adverse impacts of climate change, and foster climate resilience and low greenhouse gas emissions development in a manner that does not threaten food production (including a national adaptation plan, nationally determined contribution, national communication, biennial update report or other)

Indicator Classification

Global SDG Indicator	Yes
Proxy	No
Supplemental	No

Definition

Global Definition

National Definition

Executive Order 174- Philippine Greenhouse Gas Inventory Management and Reporting System (PGHGIMRS); Guidance Document- is envisioned to provide the general framework of the PGHGIMRS. The rules and procedures outlined in the various chapters of the Guidance Document serves as the implementing rules and regulations for the conduct, implementation, documentation, reporting and archiving of data in PGHGIMRS.

Method of Computation

Global

National

The indicator is answerable by Yes or No in the national context. Yes if the Philippines have communicated the establishment or operationalization of an integrated policy/strategy/plan which increases their ability to adapt to the adverse impacts of climate change, and foster climate resilience and low greenhouse gas emissions development in a manner that does not threaten food production

The custodian agency will compile the global indicator.
